

## Discovering Feltmaking | The IFA Award for Excellence in Feltmaking

Our online **Discovering Feltmaking** courses are the essential building blocks you need if you want to explore the art of feltmaking. With them, you can create an exciting portfolio of work, charting the discovery process.

Now, we have designed an award in **3 distinct stages** where you can submit your work to be assessed on your progress and achievements.

We provide you with specific assessment criteria for each **Discovering Feltmaking** course so that you know what you need to achieve every step of the way. As you progress, you can see what stage you have reached in our three-part award system.

How does it work?

### The IFA | Certificate in Feltmaking

This comprises of

- DF1 Basics
- DF2 Colour
- DF3 Surfaces and Edges

These three courses cover the essentials of good quality feltmaking. After completing all aspects of the three, students are invited to submit their work for assessment. The successful student will receive the **Certificate in Feltmaking**

### The IFA | Advanced Certificate in Feltmaking

This comprises of

- DF4 3D
- DF5 Nuno

These two courses move onto more specialised areas of 3-dimensional and Nuno feltmaking. After completing all aspects of these two areas, students are invited to submit their work for further assessment. The successful student will receive the **Advanced Certificate in Feltmaking**

### The IFA | Excellence in Feltmaking

Our **Excellence in Feltmaking Award** is a culmination of our **Discovering Feltmaking Programme**. Assessment will be based on your own personal project, using all the techniques learnt throughout the five courses.
